As Others See It

Winslow Sees Grave Situation In Mexico as Well as Panama

To the Editor,

America's attention has been dramatically forced to examine the spectacle of rioting, arson, murder, armed insurrection and Castro-trained agitators in the outburst of violence and hate in Panama. America is beginning to wonder about Cuban Communist infiltration and wondering why the CIA, the State Department and official Washington has been unwilling or unable to cope with Castro-trained provocateurs. They wonder how a mosquito can so effectively disrupt and dismay a strong and healthy body such as the United States of America. Let us take heed from the (Aedes Aegypti) — that death dealing mosquito which transmits yellow fever and dengue. It takes only one little mosquito to kill one strong, healthy man. By the same token, it takes only one little Castro to disrupt the National Security of a big power.

Mexico may be another trouble spot which could unexpectedly erupt into bloody genocide. A brief but important note published in "El Universal" on Dec. 16, 1963 states that Cuban pilots are being trained at the Mexican military base of Zapopan, on the

outskirts of Guadalajara, State of Jalisco. Eight pilots have already finished their courses.

Hugo Salinas Price, the newly elected (Dec. 1, 1963) president of the PNM, "Partido Nacionalista de Mexico," stated as follows on Dec. 31, 1963 (Apartado Postal No. 15049 Mexico 15, D.F.):

"A source whom we have every reason to believe, has informed us that it knows the exact localization of two arms caches on the Pacific coast of Mexico. Arms are landed from Russian submarines, smuggled into the interior of Mexico. Some are still on the coast."

The collectivists and Communist accommodators will not face these realities. They refuse to demand the tightening of our outposts. They scorn the Monroe Doctrine in the nightmarish hope that when we make pacts with the devil all will be happy and secure. They spew their venom and hate on those who have the foresight to be alarmed. They look upon themselves as the enlightened ones. They fail to realize that Armageddon may be near at hand.
